

# CITRUS BURNISHING OIL

## Product Description

Our Citrus Burnishing Oil leaves a silky smooth, fresh smelling food safe (BS EN 71-3:2019) finish on your turned pieces.

This oil can be easily applied and then burnished dry in a matter of minutes, and can be overcoated with waxes or lacquers if you wish. Use multiple coats for a water and oil resistant finish suitable for salad, fruit and snack bowls.

- Easy to apply; Over 50% Tung Oil; Food Safe when dry;
- Fresh smell when dry, fading over time; Deeply penetrating and protecting; Will not chip, flake or peel;
- Naturally water and oil resistant when cured.

Supplied in a 500ml (17.6oz) cone top bottle.

**Click for Information and Videos at [www.hampshiresheen.com](http://www.hampshiresheen.com)**

## Basic Application

- Shake before use.
- We recommend sanding to at least 400, 600 or a higher grit.
- Apply the oil using a paper towel and allow to penetrate the wood for a minute or two;
- Remove excess oil from surface;
- With the lathe spinning safely fast, use a paper towel to burnish the oil dry;
- Recoat as required.
- May be overcoated with wax or lacquer when properly cured.
- Use within 12 months of purchase for best results.

## PRO FINISHING TIPS

- Avoid rushing your finishing, particularly with oils.
  - Clean the dust off the piece before applying, particularly open grained woods.
    - Apply with paper towel.
    - Apply with the lathe stationary.
- For the best finish, remove excess oil from the surface before burnishing dry to a finish.
  - Lightly de-nib the surface between coats before adding more oil; remove the excess before burnishing.
  - After a few coats, and allowed to harden for a few days, the citrus finish is water and oil resistant.
  - Can be used with the Intrinsic Colour Collection.
  - If using as an embellishment rather than a finish, apply the oil *before* any sealer.
    - Ensure the product is completely cured before applying any further finishes or putting into use.
      - Firmly replace the lid after use.
  - Store in a cool dry place out of direct light, away from heat sources and protect from freezing. BS EN71-3:2019 is a UK standard. It may not be accepted outside the UK
  - Flammable. Lay saturated towels or cloths flat to cure before appropriate disposal. Do Not Pile Them Up.

**SAFETY FIRST! Always take appropriate steps to ensure the safety of your workshop environment.**
